STATION #2 MAP SKILLS
THE SOUTH

1. Into what two regions are the Southern states divided? Name the states in each region.

2. What agricultural regions are found in the South? Why do you think there are such a variety of crops? What connections can you make with agriculture and land use?

3. How has the center of population changed between 1790 and 1990? For what reasons has it changed?

4. Label the capitals and color in the states of this region.
