

United States and Canada

Mapping Activity

Use these maps to answer the tasks for this assignment

For each question, you will need to identify which map or maps you have used to complete the task

You will most likely need to use the Political Map for each question, so that is not a choice when you are selecting maps. If it happens to be the only map you use, you may add it to the list.

Political Map

Physical Features of Canada and the United States

Climate Zones of Canada and the United States

Vegetation Zones of Canada and the United States

Population Density of Canada and the United States

Economic Activity of Canada and the United States
